## Step1: LNSTALL SOFA FEET

① Open the four outer cardboard boxes separately, cut and remove the sofa legs with electric side ties, fix them in position, corner them, and open the zipper at the side to remove the sofa legs, and install them in sequence.

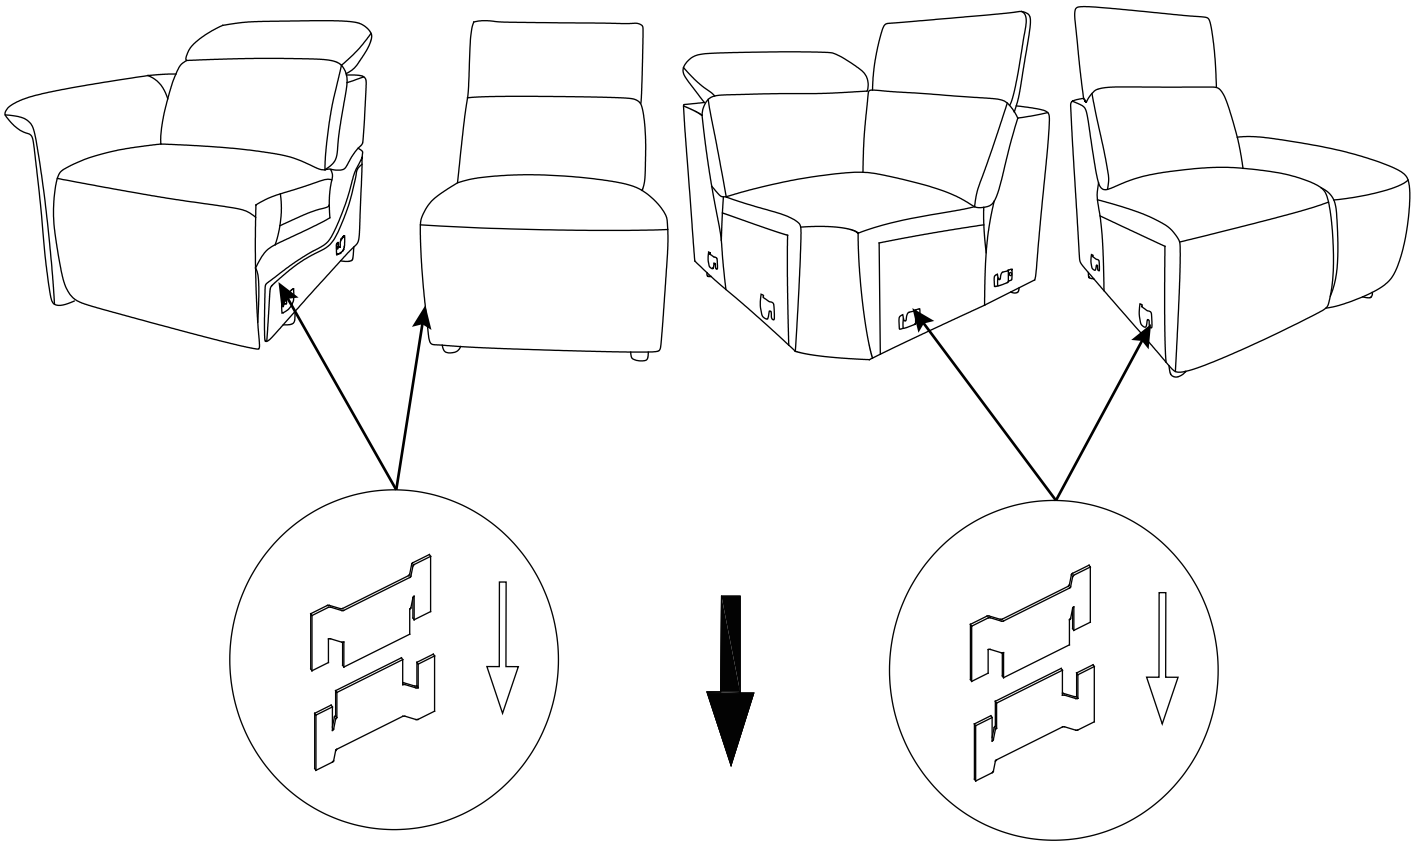

② As shown in the figure, install the four plastic feet on the main body of the sofa separately.

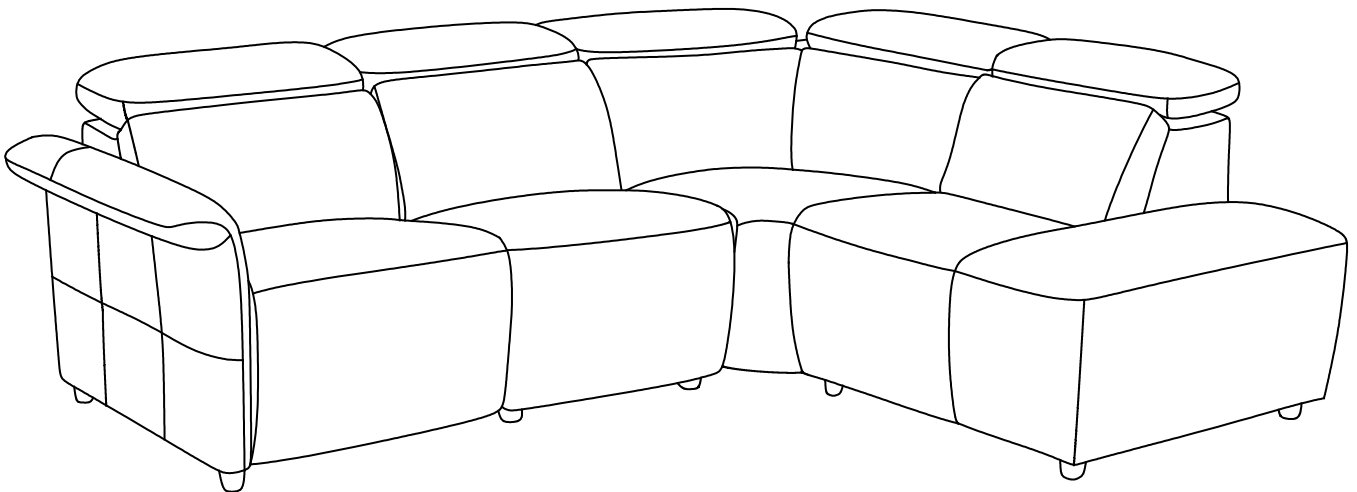

Tighten the 16 plastic middle feet clockwise according to the diagram to the sofa body.

## Step2: LNSTALLING COMPINATION

Align the fixed sofa insert with the left electric side insert and press down. Then align the corner position insert with the fixed position insert and press down. Finally, align the edge position insert with the corner position insert and press down to complete the assembly.

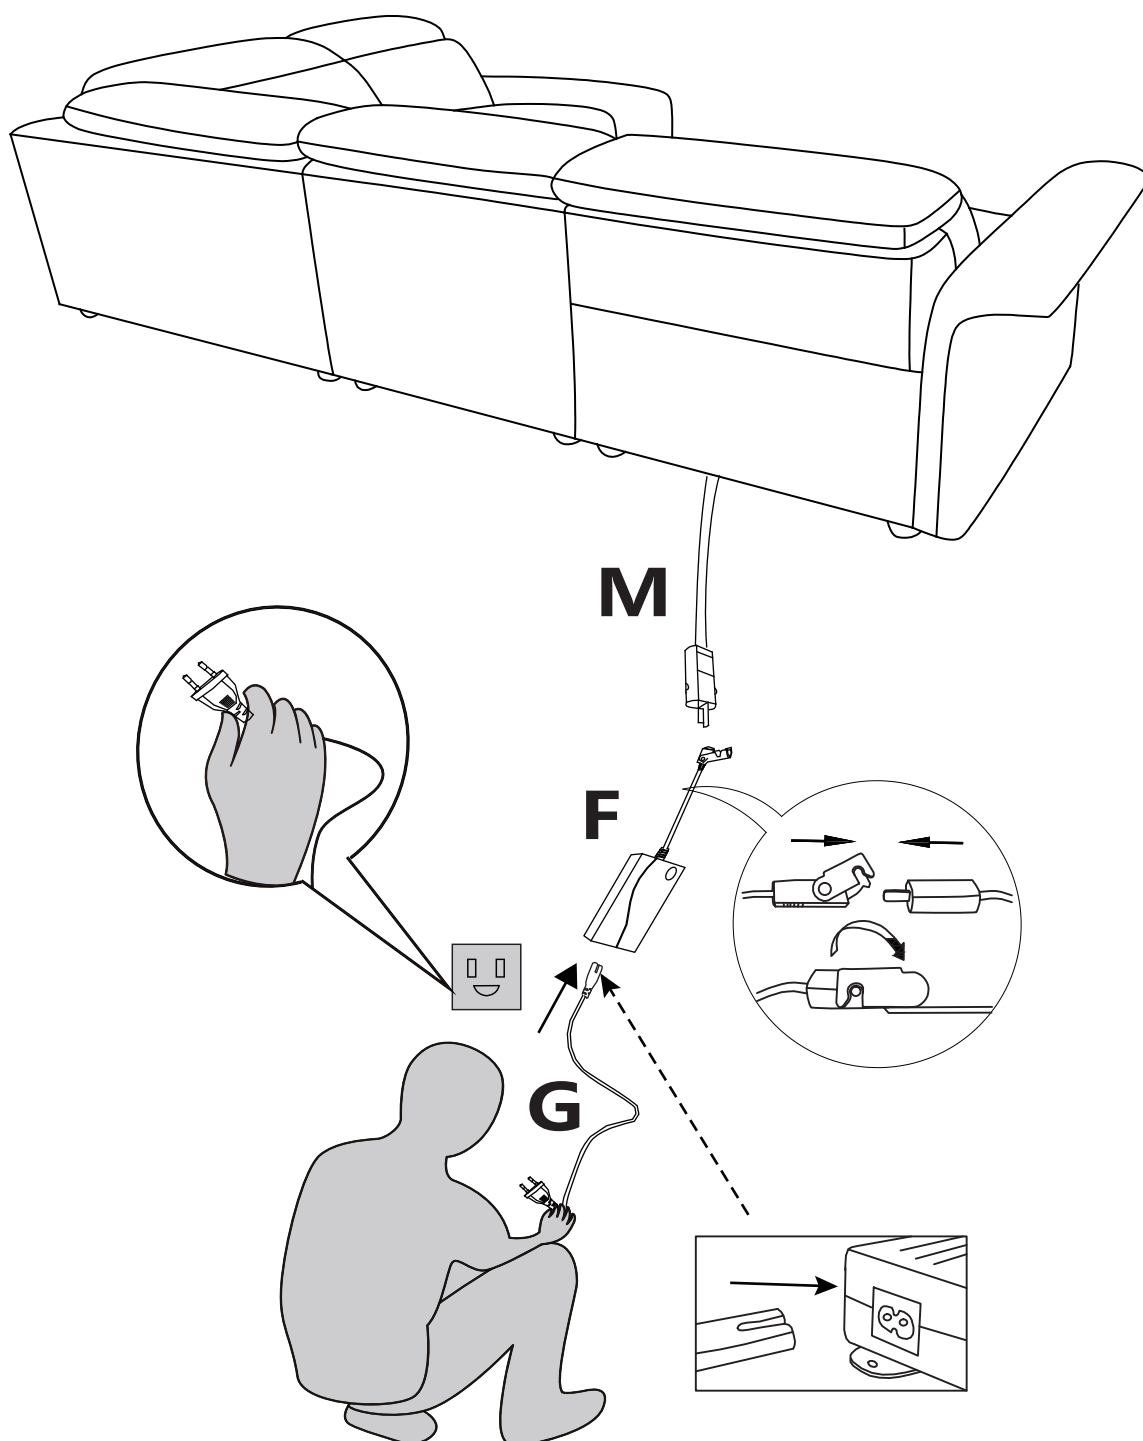

**Assembly completed**

## Step3: INSTALL WIRING

Connect the power adapter (F) to (M). Connect the power cord (G) to (F), so plug it in and use it.

**Note:** After all lines are connected, be sure to secure the anti detachment cover.

## Step4: SCHEMATIC DIAGRAM OF SWITCH USAGE

After turning on the power, there is a function button on the inner cushion of the three person sofa, which controls the function of using a single sided sofa.
